Secrets

+ New Secret

Secrets are accessible to anyone who has access to this App. To restrict secret access, you must update App invite permissions. For more information, visit our documentation.

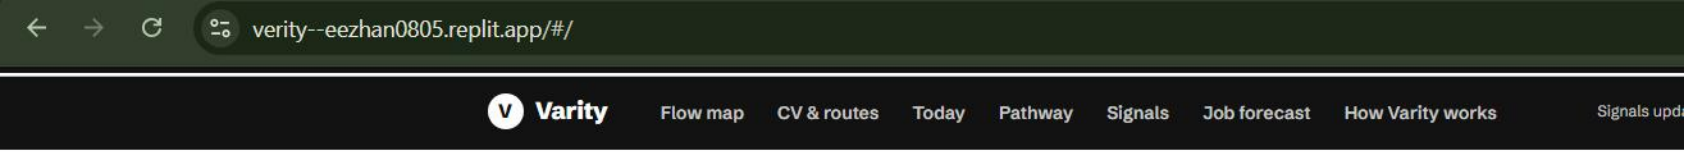

Filter Secrets by name

ANTHROPIC_API_KEY	••••••••
GOOGLE_CLIENT_ID	••••••••
SESSION_SECRET	••••••••

Configurations

More + New configuration

Configurations are similar to secrets, but should only be used for non-sensitive information. They're useful for having a variable that's different between your published app and when testing on Replit.

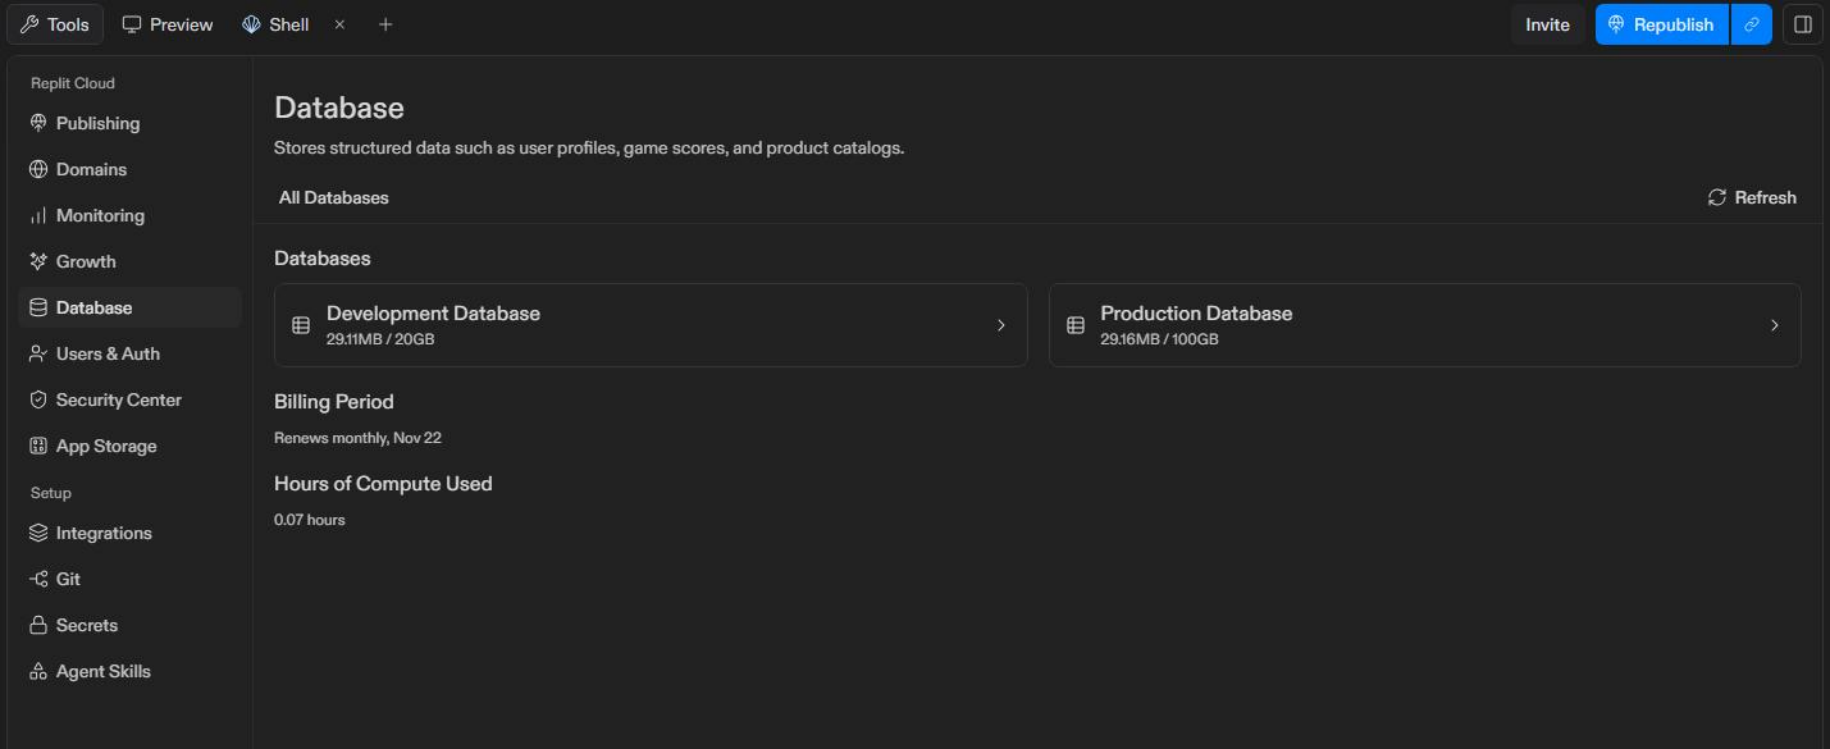

From CV to hired, one stop at a time.

A personal route from the skills you have to the job you want, with free resources where we have them.
